

Waiting

(Hed) P.E.

I can't quit you
I don't want to
I know it's not right
I'm up all night
I'm just waiting
I'm waiting
For something
To make it alright

I can't quit you
I don't want to
I know it's not right
I'm up all night
I'm just waiting
I'm waiting
For something
To make it alright

You're just no good for me
Still I can't let it go
I'm like a junkie, an addict
I'm about to overdose
You get me high
Gotta have it
I'm goin thru withdrawals
I'm codependent
Believe me when I say
You're just no good for me
I've gotta find a plug
You are my weakness
I'm jonesin'
I gotta fire it up
But you can't see me
I'm ghostin
It's like we fall in love
Hopin' its destiny
I can't let you get the best of me

I can't quit you
I don't want to
I know it's not right
I'm up all night
I'm just waiting
I'm waiting
For something
To make it alright

I can't quit you
I don't want to
I know it's not right
I'm up all night
I'm just waiting
I'm waiting
For something
To make it alright

You're just too good for me

I'm just a jealous guy
I see you smokin
You're chosen
Somebody get me high
I need a fix
I'ma broken record
The needle drop
I'm codependent
Believe me when I say
It's just too good for me
I'm bout to overdose
I need some company
Come for/Comfort me
I feel so alone
No one can see me
I'm ghosted
Just like we fall in love
Hopin' its destiny
I can't let you get the best of me

I can't quit you
I don't want to
I know it's not right
I'm up all night
I'm just waiting
I'm waiting
For something
To make it alright

I can't quit you
I don't want to
I know it's not right
I'm up all night
I'm just waiting
I'm waiting
For something
To make it alright

Not tryin to waste your time (it's alright)
Just tryin to find my place
Between a rock and a hard place
Waste of time, its a bad day, bad day
Show me some peace of mind (it's alright)
Show me the way I should pray to you
Get down on your knees
Show me the way
You want me to pray to you
When the fire dies
(Don't let it die)
When the sunset cries your name
Say my name...
Can't you say my name?
I will be right there
I will be waiting
Waiting in vain...

I can't quit you
I don't want to
I know it's not right
I'm up all night
I'm just waiting
I'm waiting
For something

To make it alright

I can't quit you
I don't want to
I know it's not right
I'm up all night
I'm just waiting
I'm waiting
For something
To make it alright

Something to make it alright
You're just no good for me
