

# Your Pride

(Hed) P.E.

Your pride  
Your pride gets in the way

You blind them leaving them blind?  
You blind them leaving them blind?  
You blind them leaving them blind?  
You blind them leaving them blind?

How did we get here?  
What do we do now?  
This garden needs attention  
She has me so neglected  
What are we doing here?  
Where do we go now?  
I say we go inside and work our fucking way out

Let's go, my lesser pressure, this way is no way at all  
Let's go, the season of treason  
Your pride will wait for the wall  
Your way is no way at all

You blind them leaving them blind?  
You blind them leaving them blind?

Just give it to me  
Your pride will wait for the wall

No, this is not that kind of game  
We play for keeps  
We go in deep  
What are you doing here?  
Where you going now?  
Just let me step there, and let me find my way out

Let's go, my lesser pressure, this way is no way at all  
Let's go, the season of treason  
Your pride will wait for the fall  
Get to the way of it all  
Your way is no way at all  
You blind them leaving them blind?  
You blind them leaving them blind?  
Just give it to me  
Your pride will wait for the wall

You dangerous fool  
Too much time on your hands  
Where was the heart that just split from the ground?  
But don't shed a tear for

You're fucking dangerous  
You're fucking dangerous  
You're fucking dangerous  
You're fucking dangerous

Your pride will wait for the fall  
Your pride will wait for the fall  
That is the way of it all

That is the way of it all  
Your way is no way at all  
Your way is no way at all

You blind them leaving them blind?  
You blind them leaving them blind?  
You blind them leaving them blind?

Your pride will wait for the wall

You blind them leaving them blind?  
You blind them leaving them blind?  
You blind them leaving them blind?

Your pride will wait for the wall

Just give it time  
Your pride will wait for the wall
