

Let Me Explain

Hedegaard

Oh snap this a classic
No shit go hit
Let your momma hear it go ahead and blast it
Crack for the masses
You and me kid
We could brake the night and we could probably catch a dragon
Puffing on smoke
Chasing my tail
Keeping it fly
Wishing them well
Stoking the fire
Bring in the choir
Sharpen my teeth
Pay me to scale
Hit me with that one two
Snap quick like elastic
Paper stretch till that rubber band fit

Snap to it
Back to back cash fluid
Happy happenstance
A flash movement
Do your happy dance
Get back to it
Before they Russian
Rasputin
Take a stab do it

Oh my lord
It's the master in a Coke white Ford
Going faster what the brake lights for?
Choked by the force
Invaders from the world wide source
Cater to the hate of it
Impatient
Fuck you waiting for?

Let me explain

Let me let me explain

I was looking for the wave on the way to the brain
On the way back made a sack who do I blame?
Maybe the wave cap relaxing all the blood in my veins
Maybe they all play a factor but ain't none of them changed

It's all the same

Oh shit
God damn
Let me council with you brother
Let me take your hand
Lend me your ear
Let me be part of your fam
Let me
Let me explain
I heard a tall tell all the way from the grape

He had a stash and a passion
He took to the grave
Maybe the acid is fact and we living a dream
Maybe it's all true man and the world is a stage
It's all the same

Snap to it
Back to back cash fluid
Happy happenstance
A flash movement
Do your happy dance
Get back to it
Before they Russian
Rasputin
Take a stab do it

Oh my lord
It's the master in a Coke white Ford
Going faster what the brake lights for?
Choked by the force
Invaders from the world wide source
Cater to the hate of it
