

Last Call

Hedley

Headlights blinking like a car stuck on the side of the road
Another story 'bout a setting sun that's never been told
Feels like you're losing it all, feels like you're losing it all

Every time you turn around it seems the world has got you down
Keep holding on, we're holding on together

This is the last call
For anyone who gives a damn at all
Last call
If we stand together, we will never fall
With the lights off, we'll shine on, we'll shine on
Last call
For anyone who gives a damn at all

When will it rain upon the desert of your tired heart
Like a tempest, like a storm rolls in to tear you apart
Like you're losing it all, feels like you're losing it all

Every time you turn around it seems the world has got you down
Keep holding on, we're holding on together

This is the last call
For anyone who gives a damn at all
Last call
If we stand together, we will never fall
With the lights off, we'll shine on, we'll shine on
Last call
For anyone who gives a damn at all

We all bleed
You and me
You can't stop living now you gotta believe
You can't stop living now you gotta breathe

This is the last call
For anyone who gives a damn at all
Last call
If we stand together, we will never fall
With the lights off, we'll shine on, we'll shine on
Last call
For anyone who gives a damn at all

Last call
Last call
With the lights off
We'll shine on, we'll shine on
Last call
For anyone who gives a damn at all
For anyone who gives a damn at all
