

Come Clean

Heideroosjes

Let's face what you don't admit
Massacre, you had a part in it
Genocide in front of our eyes
Stop masking your guilt with lies

Come clean!
History can't be lied to 'cause we've seen
Now you must confess, come clean!

Evidence lost in the lab
Don't sell me that kind of crap
Women, children agonized
Soldiers watched, got traumatized

Come clean!
History can't be lied to 'cause we've seen
Now you must confess, come clean!

1995, on dark days in July
Over 7000 died under a bright blue sky
We can't change history, what's done is done
Confession is the first step to overcome

Come clean!
Come clean!
History can't be lied to 'cause we've seen
Now you must confess, come clean
Stop playing down, now say what you mean
Now you must confess, come clean

* you = Dutch government
