

# Flash

Heidi Montag

Only took a shot, now I'm left with a taste  
Got out of the house and that's when everything changed  
Who knew that forever was a second away? (Away)  
We were at the party, I was acting annoyed  
But I went to the bathroom with a couple of boys  
Then I saw your face, I think you left me no choice

You had your hair back, handsome  
Tall and then some  
My heart, ransom  
And then I saw our whole life flash before

My eyes  
We were dancing on the same legs of that time  
We were tangled up in bed  
You know, I've never felt just so alive thinking I must have di  
ed  
Because I  
Saw our whole life flash before my eyes

I just wanna tell you that I traveled in time  
I saw all our kids and we still haven't said hi  
Ask me what I'm thinking 'bout, I promise I'll lie

Say you hate small talk, me too  
Let's walk, where to?  
Nice to meet you  
And you got me feeling like I saw this flash before  
Oh, my gosh

My eyes  
We were dancing on the same legs of that time  
We were tangled up in bed  
You know, I've never felt just so alive thinking I must have di  
ed  
Because I  
Saw our whole life flash before my eyes

My eyes  
My eyes  
My eyes  
My eyes  
I saw our whole life flash before my eyes
