

No Going Home

Heidi Montag

Woke up in the aftermath
How can I prove life's not a dream?
One drive down the PCH brings me right to my knees

Tryna pick up all the pieces
Get back to the way it used to be
Feeling like I got amnesia
Cause where the hell are all my memories?

Everybody says
Hold on to hope
Everybody says, at least you're not alone
Got an open road
But where do you go
Where do you go
When there's no going home
Home
Home
When there's no going home
When there's no going home

Pictures on the mantle
Of us blowing out candles
It's nothing but a fairytale now
Everything's dismantled
It's too much to handle
Gotta be strong but I don't know how

Tryna pick up all the pieces
Get back to the way it used to be
Feeling like I got amnesia
Cause where the hell are all my memories?

Everybody says
Hold on to hope
Everybody says at least you're not alone
Got an open road
But where do you go
Where do you go
When there's no going home

Just like that in of an blink eye
My whole world changed overnight
Never got to say goodbye
Guess I thought we'd have more time
I try to justify
Try to find the brighter side
But all I do is cry
Got me cursing at the sky

Everybody says
Hold on to hope
Everybody says at least you're not alone
Got an open road
But where do you go
Where do you go
When there's no going home

Home
Home
When there's no going home
Home
Home
When there's no going home
When there's no going home
When there's no going home
When there's no going home

One day I'm going home
