

## All of Us

Heimdall

I'm with you to celebrate this day  
I'm with you to draw a new world paint  
I'm with you when pride will be our god  
and when the black clouds will cover the sky

United together  
Under the noble flag..

All of us - in this magic age  
We are marching and marching on  
The hardest way  
All of us - in this mystic place  
Revolution is calling our names

I'm with you in these shady plains  
I'm with you in for deliverance  
I'm with you when the dawn lights us  
and when the blood-stained curtain falls down

United together  
Under the noble flag..

All of us - in this magic age  
We are marching and marching on  
The hardest way  
All of us - in this mystic place  
Revolution is calling our names
