Helalyn Flowers

A fragile wall beyond your mind  
And everything's stranger  
Try to fall down  
Searching for you  
And its hard to fee  
lTo live and try  
To synchronize  
And to understand

Once you were so near  
And so far away  
At the same time  
A fragile wall beyond your mind  
You feel so fade  
A fragile wall beyond your time  
And everything's so fade  
You try to perceive other times

Something in your hand  
Where is it from?  
It's over you  
And its hard to feel  
To live and try  
To synchronize  
And to understand  
Once you were so near  
And so far away  
At the same time  
A fragile wall beyond your mind  
You feel so fade  
A fragile wall beyond your time  
And everything's so fade
