

All I Really Need Is You

Helen Reddy

All I really need is you
But if you got money, I'll take that too
Big Cadillac won't make me blue
But all I really need is you

And a big fur coat to keep me warm
Some stocks and bonds won't do no harm
A forty-foot yacht with a twelve-man crew
But all I really need is you

All I really need is you
But if you got money, I'll take that too
Big Cadillac won't make me blue
But all I really need is you

You can love anyone you see
Just leave that checkbook here with me
And if I spend a grand or two (don't be blue, babe)
'Cause all I really need is you

A great big house with the mortgage paid
Fifteen butlers and a maid
Sapphire diamonds, big and blue
But all I really need is you

All I really need is you
But if you got money, I'll take that too
Big Cadillac won't make me blue
But all I really need is you

All I really need is you
But if you got money, I'll take that too
Big Cadillac won't make me blue
But all I really need is you

All I really need is you
But if you got money, I'll take that too
Big Cadillac won't make me blue
But all I really need is you
