

# Don't Tell Me Tonight

Helen Reddy

Hold on, what is that look you've been wearing?  
Don't say a word, you're just staring  
What have I done? Oh, don't answer  
Whatever it is, it can wait for  
Some other day when I've got the time

Okay, I get the message, so what now?  
We always get over it somehow  
Then it's alright, but you're shaking  
You mean it this time, no mistakin'  
You're over my head, I can't bear to hear

Don't tell me tonight, I will not listen  
You don't really know what you've been missing  
The love we had, why can't you see  
That you won't find no fool like me

Don't tell me tonight, I will not take it  
If you've got some news, then please don't break it  
To me this way, it's not the time  
By morning you might change your mind

You know that I'm right  
But if I'm wrong  
Then please don't tell me tonight

How come we got to this?  
When we started, we just couldn't miss  
You remember, stars in our eyes  
We had visions, together we made all decisions  
So think of us then when you see me now

Don't tell me tonight, I will not listen  
You don't really know what you've been missing  
The love we had, why can't you see  
That you won't find no fool like me

Don't tell me tonight, I will not take it  
If you've got some news, then please don't break it  
To me this way, it's not the time  
By morning you might change your mind

Don't tell me tonight, I will not listen  
You don't really know what you've been missing  
The love we had, why can't you see  
That you won't find no fool like me
