

## Gladiola

Helen Reddy

Everybody's leaving town  
They're packin' their grip, they're gettin' around  
They're going to only, God knows where  
Now you, Gladiola, now you, Gladiola

Hear me, Gladiola, I can read what's on your mind  
It looks as though you've been crying such a long time  
Now you and me together, we're like apples and a pear (Gladiola  
)  
We're much too close to tear ourselves apart  
So, honey, won't you kiss me from your heart?  
It's time to say goodbye

And it's a great big world  
And a lot of things can happen to a small tender (like you)  
So, if you change your mind  
Well, you might just want to find your friend

Hear me, Gladiola, I can read what's on your mind  
It looks as though you've been crying such a long time  
Now you and me together, we're like apples and a pear  
We're much too close to tear ourselves apart  
So, honey, won't you kiss me from your heart?  
It's time to say goodbye

So, if you change your mind  
Well, you might just want to find your friend

Now hear me, gladiola, I can read what's on your mind  
It looks as though you've been crying such a long time  
Now you and me together, we're like apples and a pear  
We're much too close to tear ourselves apart  
So, honey, won't you kiss me from your heart?  
It's time to say goodbye
