

Save Me

Helen Reddy

The party's on, and one by one
Cars arrive and people come
And I wonder if there's anyone on his own
A lot of boring guys try to catch my eye
But I only came alive
When you smiled at me as you arrived alone

Save me
Take me away to the moonlight (take me away)
People around me don't feel right
What are we doing here? (what are we doing here?)

Come on and save me
Let's get away from the action
You are the only attraction
Take me away from here

No one saw or heard a single word
We slipped away like fleeting birds
For we both agreed it seemed absurd to stay
I was cold and hot, should I go or not?
You took my hand, I couldn't stop
And we laughed in the parking lot as we drove away

Save me
Take me away to the moonlight (take me away)
People around me don't feel right
What are we doing here? (what are we doing here?)

Come on and save me
Let's get away from the action
You are the only attraction
Take me away from here

Starry sky, moon on high
Sure feels good to me (feels good to me)
In my bones, I've always known
This is how it's meant to be

Save me
Take me away to the moonlight (take me away)
People around me don't feel right
What are we doing here? (what are we doing here?)

Come on and save me
Let's get away from the action
You are the only attraction
Take me away from here

Come on and save me
Take me away to the moonlight (take me away)
People around me don't feel right
What are we doing here? (what are we doing here?)
