

# Surrender

Helen Reddy

No more wars to fight  
White flags fly tonight  
You are out of danger now

Battle field is still  
Wild poppies on the hill  
Peace can only come when you surrender

Here the tracers fly  
Lighting up the sky  
But I'll fight unto the end  
Let them send their armies  
I will never bend  
I won't see you now till I surrender

I'll see you again when I surrender  
Oh, when I'm lonely, ooh

No more wars to fight, (No more wars to fight)  
White flags fly tonight  
You are out of danger now, (You are out of danger now)

Battle field is still  
Wild poppies on the hill  
Peace can only come when you surrender, (when you surrender)  
When you surrender, when you surrender

Here the tracers fly  
Lighting up the sky  
But I'll fight unto the end  
Let them send their armies  
You know that I will never bend  
I won't see you now till I surrender

I'll see you again when I surrender  
Ooh, ooh, ooh
