

The Way I Feel

Helen Reddy

Will there come a time
Will I get to know you
Will I ever show you
Everything you mean to me

Every time I'm near you
I just want to hear you
Hear you call my name

Love is there and I've got to show it
Nothing's left to conceal
Can't you see in the eyes of your lover
Everything that is real
And that's the way I feel
That's the way I feel

Every time I see you
I just want to hold you
I wish I could have told you
A long, long time ago

Love is never hidden
Love is freely given
And darling, I want you to know

Love is there and I've got to show it
Nothing's left to conceal
Can't you see in the eyes of your lover
Everything that is real
Well, that's the way I feel
That's the way I feel

That's the way I feel
That's the way I feel

Love is there and I've got to show it
Nothing's left to conceal
Can't you see in the eyes of your lover
Everything that is real
'Cause that's the way I feel
That's the way I feel

Love is there and I've got to show it
Nothing's left to conceal
Can't you see in the eyes of your lover
Everything that is real
'Cause that's the way I feel
That's the way I feel
