

A Brighter Day (Andithesis)

Helena Paparizou

Oh oh oh oh

Have you ever felt like giving up
But you kept fighting cause you knew you were strong
And you just felt like you had enough
But in the end you kept holding on
So now you got the special feeling inside
No matter what you can make it through
You gotta find a time to run and hide
So come on there's so much we can do

It's another day, for you and me let the sun shine
Cause when life gets tough and things are rough we'll still be fine
Through the sorrow
And the heartaches
There's a way out
We can find it
Keep on searching keep the faith
There's a brighter day

I know sometimes it's hard to find the way
Just keep on searching for a better tomorrow
Then maybe you can have a brighter day
Just walk away from your pain and sorrow
Every woman, man, boy and girl
There's no time to be holding back now
Help us spread this message round the world
Come together let me show you how

It's another day, for you and me let the sun shine
Cause when life gets tough and things are rough we'll still be fine
Through the sorrow
And the heartaches
There's a way out
We can find it
Keep on searching keep the faith
There's a brighter day
A brighter day

It's another day, for you and me let the sun shine
Cause when life gets tough and things are rough we'll still be fine

It's another day, for you and me let the sun shine
Cause when life gets tough and things are rough we'll still be fine
Through the sorrow
And the heartaches
There's a way out
We can find it
Keep on searching keep the faith
There's a brighter day
A brighter day

It's another day, for you and me let the sun shine
Cause when life gets tough and things are rough we'll still be fine
A brighter day
