

# Don't Hold Back On Love

Helena Paparizou

Tonight  
I'm gonna hold my breath  
I see the light  
Over the edge

There's something, I feel it and it's in the air now  
I hear the clock and it's ticking and it's getting so loud

(Ooh oh oh oh yeah)

Let's don't hold back  
Don't hold back on love  
Don't hold back, what we need more of  
We can shine through the night  
Up to the satellites  
Let's don't  
Hold back on love

It's time  
So take my hand  
You're heart in mine  
The promise land

Oh pour gasoline make the flame get higher  
Oh make me believe in love and desire

Let's don't hold back  
Don't hold back on love  
Don't hold back, what we need more of  
We can shine through the night  
Up to the satellites  
Let's don't  
Hold back on love

La, la la, la la la la la la

(Ooh oh oh oh yeah)

Let's don't hold back  
Don't hold back on love  
Don't hold back, what we need more of  
We can shine through the night  
Up to the satellites  
Let's don't  
Hold back on love
