

Lightning

Helena Paparizou

In a single moment everything can change
you can never be broken you will never be tamed

Do you feel the fire, how it runs your veins
and now you're aiming higher, nothing stands in your way

Feels like we're flying, feels like we re flying
We're stars and we're shining
Through thunder and lightning

Feels like we're flying, feels like we re flying
We're stars and we're shining
Through thunder and lightning

Some have to fake it
Some don't need to pretend
Some were born for greatness
but i was born to win

I know where I come from
I know where you have been
I will build my empire
through fire and wind

Feels like we're flying, feels like we re flying
We're stars and we're shining
Through thunder and lightning

Feels like we're flying, feels like we re flying
We're stars and we're shining
Through thunder and lightning

Feels like we're flying, feels like we re flying
We're stars and we're shining
Through thunder and lightning

Feels like we're flying, feels like we re flying
We're stars and we're shining
Through thunder and lightning
