

The Groove Is The Solution

Helena Paparizou

That sound in your head... All the words that have been said
Make your mind...goin' wild... drivin' crazy

That sound in your head... So tonight you'll stay in bed
You don't care... if someone call you lazy

Do you know, do you know, do you know-know
There's a party in the town you should go-go
Cuz you look as dead as a do-do
Boy I'll fix you up with a go-go

Don't you know, don't you know, don't you know-know
There's a party in the town you should go - go
Boy I'll fix you up with a go-go
Wash it up, get it up and let's go -go

You turn around-around, you want it all
You get so dizzy that you wanna fall
You keep on moving till you get it all
Because you know, you really know
That Groove is the Solution...That sound in your head...
Put your back in misery
Makes your mind... goin' wild.... drivin' crazy....

That sound in your head...Makes you lose all what you get
But instead ,step it out, goin' frenzy

You turn around-around, you want it all
You get so dizzy that you wanna fall
You keep on moving till you get it all
Because you know, you really know
that Groove is the Solution

Don't you really know Let's groove in baby
Till-Until you have it all
