

# Northern Forces

Helheim

The winds speak of dismal names  
long forgotten by time and life  
the antropomorphical ones  
reduced again and again to nothing

Mocked by man of false belief  
a distance to the heathendom  
look beyond and rage  
find within the northern forces

Rituals of a higher meaning  
bonds of blood of our kin  
fallen down to entertainment  
weak stories to ridicule

Sense the cult of old  
breathe the air of the elder  
the energy of singularity  
summon your northern forces
