

Billy Oxygen

Helix

Hey come on now people let me
Tell you about a strange little fellow

He was a mission commander
Of an es-335
He was unable to land her
Electrical storm in the sky
Force field on, full speed ahead
Billy oxygen was the commander

We only got fourteen days to fly
Fourteen days to fly
To a place up in the sky
Fourteen days to fly
Where everybody's always gettin' high
We only got fourteen, fourteen days to fly

Hey come on now people let me
Tell you about a strange little fellow

The ships landing gear was down
People started to gather round
The door slowly started to open
People were ready to listen
He said my name is Billy oxygen
And I am the mission commander

We only got fourteen days to fly
Fourteen days to fly
To a place up in the sky
Fourteen days to fly
Where everybody's always gettin' high
We only got fourteen, fourteen days to fly

We only got fourteen days to fly
Fourteen days to fly
To a place up in the sky
Fourteen days to fly
Where everybody's always gettin' high
We only got fourteen, fourteen days to fly

Fourteen days to fly
To a place up in the sky
Fourteen days to fly
Where everybody's always gettin' high
We only got fourteen, fourteen days to fly

Fourteen days to fly
To a place up in the sky
Fourteen days to fly
Where everybody's always gettin' high
We only got fourteen, fourteen days to fly

We only got fourteen, fourteen days to fly
We only got fourteen, fourteen days to fly
We only got fourteen, fourteen days to fly
