

Breaking Loose

Helix

4 O'clock Friday afternoon
Punch that time clock now you'll be home soon
You week's all done now it's time to roll
You're like a time bomb about to explode

Cash your check jump in your car
You're headed out to your local bar
The music's hot the band is tight
The lady in the corner she looks outta sight

You're feeling liquored you're feeling mean
You got to blow off a little steam
Like a runaway train that just can't stop
You push you body until it drops

Ain't got no time to mess around
You know your music and you know that sound
Rock and roll hard and fast
Only got two days to make it last

Breaking loose tonight
Breaking loose all right
Breaking loose
Ain't got time to waste
Breaking loose
Getting rid of all these chains
Breaking loose
Yeah, I'm breaking loose
Breaking loose tonight

Your head is humming and you feel no pain
That rock and roll's driving you insane
Call the waiter for another round
Room is spinning 'round and 'round

See that lady at the end of the bar
Maybe she'd like a ride in your car
Need some love and need it fast
Only got two days to make it last

Breaking loose tonight
Breaking loose all right
Breaking loose
Ain't got time to waste
Breaking loose
Getting rid of all these chains
Breaking loose
Yeah, I'm breaking loose
Breaking loose tonight
Yeah, breaking loose tonight

Breaking loose tonight
Breaking loose all right
Breaking loose
Ain't got time to waste
Breaking loose
Getting rid of all these chains

Breaking loose
Call on do any it's time yeah...
Breaking loose
For a midnight baby right...
Yeah, I'm breaking loose
Breaking loose tonight
Breaking loose tonight
Breaking loose tonight
