

Down In The City

Helix

It's 2 o'clock in the morning
I'm sitting here and feeling down

And feeling oh so lonely
In this strange old town

Thinking of the times we had together
They seem so far away

And i'm longing to hold you
Just like yesterday

And i'm thinking of you
I hope you're thinking of me
Down in the city
And i'm thinking of you
I hope you're thinking of me
Down in the city
And i'm thinking of you
I hope you're thinking of me
Down in the city

I'm just a lonely boy
And so far away from home

Now susie, she's a shaker
Not a day past seventeen

But she's not a girl any longer
You know what i mean

The first time i saw her
You know she really stole my heart

Now i'm a thousand miles away
And it's tearing me apart
Yeah, yeah

And i'm thinking of you
I hope you're thinking of me
Down in the city
And i'm thinking of you
I hope you're thinking of me
Down in the city
I'm thinkin' of you baby

And i'm thinking of you
I hope you're thinking of me
Down in the city
And i'm thinking of you
I hope you're thinking of me
Down in the city

I've been thinkin' of you
Down in the city
I've been thinkin' of you
Down in the city
