

Feel The Fire

Helix

Feel the fire

Oh yeah!

Feels too hot, too hot to trot
She said feel the fire

Hands are cold and a Devil's soul
She said feel the fire

I know it's a sin and I know it's a lie
But she said feel the fire

Love is vicious and love is blind
She said feel the fire

Watch the flames get higher
She's got me burning with desire

Feel the fire
Feel the fire
(C'mon!) Feel the fire
Feel the fire

She led me in to a passion pit
She said feel the fire

I did no mimicry and I did no sin
She said feel the fire

Watch the flames get higher
She's got me burning with desire

Feel the fire
Feel the fire
(C'mon!) Feel the fire
(You gotta) Feel the fire

Feel it!

(Guitar Solo)

Watch the flames get higher
She's got me burning with desire

Feel the fire
Feel the fire
(You got ta) Feel the fire
Feel the fire

Come on
(Feel the fire)
Ooh you got to feed it
(Feel the fire)
Yeah, you know you need it
(Feel the fire)
Watch the flames get higher

(Feel the fire)
She's got me burning with desire
Yeah
Alright
