

It's What I Wanted

Helix

People always telling me
What to do and how to do it
I won't take it anymore
I got a feeling deep inside
I just can't let it ride
Too many things to bring to light
If I should mess it up
And fall flat on my face
Just pick me up and
Put me back in the race
'Cos it doesn't matter the reason why
Or how many times I have to try

Chorus

That's ok
It's what I wanted
I did it my own way
That's ok
It's what I wanted
I wouldn't be happy any other way

Oh no oh no no no no

Too many times
No room for no surprises
Too many limits I don't need
I gotta be free
A chance to breathe
It's time to take these things that bind me away

If I should mess it up
And fall flat on my face
Just pick me up and
Put me back in the race
'Cos it doesn't matter the reason why
Or how many times I have to try

Chorus

That's ok
It's what I wanted
I did it my own way
That's ok
It's what I wanted
I wouldn't have it any other way

I did it my own way
I did it my own way
I did it my own way
I did it my own way
I did it my own way
