

# Long Distance Heartbreak

Helix

Never meant to live this way  
But somehow you're there  
And I'm here  
Somehow  
I just couldn't stay  
We've changed so much  
With the passing of the years  
Oh no now we only play our games  
Tell me am I the one to blame?

Chorus

It's a long distance heartbreak coming down  
Long distance heartbreak  
It's a long distance heartbreak coming down  
Long distance heartbreak  
Always leaves me hanging on the phone  
Always leaves me feeling so alone  
Long distance heartbreak  
So alone  
Long distance heartbreak  
So alone

Never meant to hurt you like I have  
But this feeling in me just can't be changed  
Somehow somehow  
I just had to be free  
I was wrong  
Now I'm the one to blame  
Oh no now I'm still wanting you  
Tell me what am I supposed to do?

Chorus

Oh always leaves me feeling so alone  
Always leaves me hanging on the phone  
Always leaves me feeling so alone  
So alone  
Long distance heartbreak  
Long distance heartbreak  
Long distance heartbreak  
Long distance heartbreak  
Oh! Oh no!
