

Running Wild in the 21st Century

Helix

Take a trip with me
Into the 21st century
I know what's on your mind
What will we find

As time goes on and on
Will history repeat itself
Will there be
Fast cars, pretty women, rock n' roll
Well the future seems clear to me

We'll be running wild
In the 21st century
We'll be dancin'
To some lowdown crazy beat
In some far out, far off
Distant galaxy
We'll be running wild, running wild
In the 21st century

New generation in the sun
Not too different from the last one
And elvis lives and i know
Cause i heard it, heard it on the radio

As time goes on and on
And history repeats itself
Will there be
Fast cars, pretty women, rock n' roll
Don't need a crystal ball to see

Cause we'll be running wild
In the 21st century
Cause we'll be dancin'
To some lowdown crazy beat
In some far out, far off
Distant galaxy
We'll still be running wild, running wild
In the 21st century

As time goes on and on
A boy grows up to be a man
Everyone his father's son
And history repeats it self
Don't need a crystal ball to see
Cause the future's clear to me

Cause we'll be running wild
In the 21st century
Running wild, running wild

As time goes on and on
Will history repeat itself
Running wild in the 21st century
