

## Time for a Change

Helix

Everyday there's a new headline  
Another war and another life  
When will we learn to stop this killing while we can?  
Shooting men into outer space  
Maybe then they'll find a place  
Where hate and pollution  
Hasn't killed what God has made

Chorus

Mother nature's calling  
Can't you see the signs  
Mother nature's calling  
Don't you know it's time for a change

Whites hate blacks and blacks hate whites  
What's it gonna take to see the light  
Or we so blind oh so blind  
That we would fall into our graves  
Making bombs that spell the end  
Could this be armageddon  
Is death the only thing we've left  
For children yet to come?

Mother nature's calling  
Can't you see the signs  
Mother nature's calling  
Don't you know it's time  
Mother nature's calling  
Can't you see the signs  
Mother nature's calling  
Don't you know it's time  
For a change  
For a change  
Mother nature's calling  
Mother nature's calling  
Mother nature's calling  
Mother nature's calling
