

# Inside of Me

Helker

It's enough  
I know you  
Again I feel you inside me  
A weird and sad sensation  
Again I'm losing control

In the night  
I will be your slave  
But I capture you too

All the time  
I am melting and remaking  
I'm born again and you too  
Every time  
The night falls and then I break down  
I'm born again and you too

I am lost  
I can't find my way  
My room becomes smaller  
The miracle is working now  
Inside of me

In the night  
I will be your slave  
But I capture you too

All the time  
I am melting and remaking  
I'm born again and you too  
Every time  
The night falls and then I break down  
I'm born again and you too
