

# Between The Dead And The Deceived

Hell Within

I have opened my eyes to a world against me  
A futile, weak offensive  
Met head-on with crushing malice  
I'd live on more days just to watch you die  
For contempt, my savior I was not a cross that you'd bear  
I am your bastard child  
You see me in your eyes  
Suffered your life I have  
Drunk f\*\*king liar  
Into the arms of god  
Willingly let you fall  
For your place is hell  
You left me there I know it well  
Why have you forsaken me?  
I was lost  
Reared by a father's first  
Lived the lie  
Paid the cost  
Crush all the ones who've wronged you  
Rip out the tongue that scorned you  
Therein redemption lies  
Let them burn  
Let them burn  
Cut the marrow  
Taste the barrel  
End the sorrow  
Let them burn  
Light the fire  
Stack the pyre  
Hang the martyr
