

# Lie

Hellions

Not understated, understand it  
Each pitch thrown was underhanded  
Denunciation, segregation  
New tricks of the tirade, not a question  
Fuck your template, just remember  
Who was the first out that gate?  
And don't you think you had us all  
Pushed aside, kept at bay

Dressed in silk, just the same  
You'll lie tomorrow as you lie today  
You'll lie, lie, lie, lie  
To all their faces and you'll lie to mine

Beg for mercy, go

Ayo, so are you listening?  
Or just waiting to talk  
This is just step two of exposing you  
To the rest of the world  
Okay, so take that, step back  
Take the time to see all that you lack  
It's so easy to critique  
Why don't you try to create?  
Step two
