

C'Mon Get Together

hello

Got myself ready
I always plan my time like a bomb
Got myself steady
Left my house and jumped in my car

C'mon get together, c'mon get together
C'mon get together we can rock 'n' roll
C'mon get together, c'mon get together
C'mon get together we can rock 'n' roll

I saw a girl waiting
Waiting for a bus in the dark
So I stopped politely
'Cause I knew the girl was too shy to ask

C'mon get together, c'mon get together
C'mon get together we can rock 'n' roll
C'mon get together, c'mon get together
C'mon get together we can rock 'n' roll

Let it all happen
To me what can it happen to you
Or better not, I don't care
It better be for us to do

C'mon get together, c'mon get together
C'mon get together we can rock 'n' roll
C'mon get together, c'mon get together
C'mon get together we can rock 'n' roll

Come on, come on, come on
Rock 'n' roll

C'mon get together, c'mon get together
C'mon, get together we can rock.
