

## Shine on Silver Light

hello

Stay all through my life  
I know it hurts to kiss goodbye  
Don't go  
Don't ever let it die

Stay near my bed  
I got you deep in my head  
You know, without you my life is dead  
Without you my life is dead

Shine on silver light  
Gonna light my way tonight  
Shine on silver light  
Let it shine on silver light  
Gonna light my way tonight  
Let it shine on silver light

Stay and hold me close  
Let your silver light shine in my thoughts  
Shine on as your picture's nearly gone  
But your reflections carry on

Shine on silver light  
Gonna light my way tonight  
Let it shine on silver light

Shine on, shine on  
Shine on, shine on  
Shine on, shine on  
Shine on, shine on  
Shine, shine  
Shine on

Shine on silver light  
Gonna light my way tonight  
Let it shine on silver light

Shine on silver light  
Gonna light my way tonight ...
