

# Starlight

hello

Reach out your hand  
You touched my soul  
How could we ever  
Let this light go

Come closer to me  
My snow white thought  
Spread your Wings  
I'll give you my love

Starlight, starlight  
Hold on tight to this special night  
Starlight, starlight  
Hold on tight don't lose your starlight  
Making love under the starlight

Wish me your name just like a breath  
Forever and ever baby I swear  
Sweet paradise is not far away  
Hang on to me and let the love stay

Starlight, starlight  
Hold on tight to this special night  
Starlight, starlight  
Hold on tight don't lose your starlight  
Making love under the starlight

Ba-pa-pa-oooh  
Ba-pa-pa-oooh  
Ba-pa-pa-oooh

Ba-pa-pa-oooh  
Ba-pa-pa-oooh  
Ba-pa-pa-oooh

Starlight, starlight  
Hold on tight to this special night  
Starlight, starlight  
Hold on tight don't lose your starlight  
Making love under the starlight

Making love under the starlight  
Making love under the starlight.
