

That's the Time

hello

I was only lookin' over
When you asked me
Can I be your lover
I can make it for the night time
Stay with me
I'm sure to make up your mind

That's the time, to get nearer
That's the time, so go and ask her
There's the girl
Could be the one that you've been waitin' for
That's the time, to start talkin'
That's the time, to get walkin'
Now's the chance
Could be the dance that you've been waitin' for

We can make it feel like heaven
Maybe leave here just before eleven
She said: Come on let's break away
From this old café
Don't really wanna stay
'Cause I really love you

That's the time, to get nearer
That's the time, so go and ask her
There's the girl
Could be the one that you've been waitin' for
That's the time, to start talkin'
That's the time, to get walkin'
Now's the chance
Could be the dance that you've been waitin' for

That's the time, to get nearer
That's the time, so go and ask her
There's the girl
Could be the one that you've been waitin' for
That's the time, to start talkin'
That's the time, to get walkin'
Now's the chance
Could be the dance that you've been waitin' for.
