

The in Place

hello

Oh, there's a little café
Just a street away
And the kids who make it there
Really make you sway
On the night we're passing by
Girl, it really takes my eye
It's the in place to go

It's come cool inside
Maybe all of me
And the crazy things they do
They really did to me
There's a reason I love the lot
Show her what she's made of

It's the in place to go
Don't you wanna know?
It's the in place to go
Don't you wanna know?

It's gotta be the in place
It's gotta be the place to go
It's gotta be the in place
It's gotta be the place to go

Where you see summers house
So many ways to prove
And the girls are six foot two
Move really smooth
Live it up, let it all begin
Come on and be part of the scene

It's the in place to go
Don't you wanna know?
It's the in place to go
Don't you wanna know?

It's gotta be the in place
It's gotta be the place to go
It's gotta be the in place
It's gotta be the place to go
It's gotta be the in place
It's gotta be the place to go
It's gotta be the in place
It's gotta be the

It's the in place to go
It's gotta be the in place
Don't you wanna know
It's gotta be the place to go

It's the in place to go
It's gotta be the in place
Don't you wanna know
It's gotta be the place to go

It's the in place to go

It's gotta be the in place
Don't you wanna know
It's gotta be the place to go

It's the in place to go
It's gotta be the in place
Don't you wanna know
It's gotta be the place to go

It's the in place to go
It's gotta be the in place
Don't you wanna know ...
