

## Dear Jaime... Sincerely Me

Hellogoodbye

Dear Jamie I've got a letter I would like to send  
It's lacking strings of words with punctuation at the end.  
Should I trust this dialect?  
To convey the right effect?  
Dear Jamie I've got some things I'd like to set in pen  
I would have used a pencil but lead's just not permanent.  
Should I trust my printer's ink?  
To express the things I think?

Every page I tried my best to think of something to contest  
With inside jokes and all the folks who've got much more to say

Dear Jamie this envelope will represent my heart  
I'll seal it, send it off and wish it luck with its depart.  
This stamp will be every action that carry my affection  
Across the air and land and sea  
Should I trust the postage due?  
To deliver my heart to you?

Every page I tried my best to think of something to contest  
With inside jokes and other folks who've got much more to say  
Every page I tried my best to think of something to contest  
With inside jokes and other folks who've got much more to say  
Give you all I can  
Flower and a hand  
I hope this helps you see  
Signed Sincerely me.
