

I'll Keep on Following You

Hellogoodbye

I spend my time
Just being in love
I'm lost in a touch
You give me so much

I'm optimistic
Just when I'm with you
You show me the truth
It's like how can I lose
With us

So I'll keep on following you
If you keep on following too
And I'll keep on following you
If you keep on following too

So I'm not a mystic
Cause I'm not a fool
No God could get me
Down on my knees
But I'll do it for you

So why
Would I lie to my
Closes confidant
When all I want
Is all or none
All the time

So I'll keep on following you
If you keep on following too
And I'll keep confiding in you
I'll keep from hiding from you
So I will keep on following you
If you keep on following you

And I know you always will do
Whatever your heart wants you to do
So I'll keep on following you
If you keep on following too
