

Giants On The Run

Helloween

We are fine when asleep
Some nap light, some nap deep
Don't make noise, close the blinds
Keep the truth off our minds

When we come to, no man can save you

We are giants on the run
We are giants, one by one
We are gods inside
Dare and you may find
We are giants on the run

When you see what is shown
There's no need to atone
Just beware of the foes
Lurking dormant, far and close

Hold out losses, we are the masses

We are giants on the run
We are giants, one by one
We are gods inside
Dare and you may find
We are giants on the run

Masters of dungeons, accept your downfall
Walk through the fire and burn for us all
Creatures of heaven, we once have been all
Accept our rising and pay up your toll

We have walked the Earth a long, long time ago
Like gods, we lived our lives
The elders in the sky then left us down to die
Like snowflakes in the sun
We're giants on the run and we came to be undone
And the afterlife was coming much too soon
Abandoned as we were, no place for us on Earth
And a grim fate hit us all to seal our doom

Yeah
We are giants
On the run
We are giants
Bound to live forevermore

We are giants
On the run
We are giants
Bound to live forevermore

We are giants
We are giants
We are gods inside

We are giants on the run
We are giants, one by one

We are gods inside
Dare and you may find
We are giants on the run

Giants
We are giants
