

Majestic

Helloween

When it made first contact, I thought it was an illusion
But then I realized, whatever you believe in is real

What is their plan? Why is it so?
Where are we now? Where will we go?

I'm staring in silence into the unknown
The masters are coming
The time brought them home
I see all that I have believed in was true
Salvation is coming for me and for you

Here we are
Majestic
The masters
We are
Majestic
The masters are home

Traveling for light-years, but time left its mark
For the lost and departed, a light in the dark
Battalion commanders who cry for revenge
Be crushed and discarded, to hell they'll be sent

Here we are
Majestic
The masters
We are
Majestic
The masters are coming home

So now I'm walking through the past, through the days that never last
Chasing shadows on the way, on an island of dismay
Held the key to life in hands, but I lost it in the sand
We are small, we'll never know that our spirit needs to grow

Here we are
Majestic
The masters we are
Majestic
Here we are
Majestic
The masters we are
Majestic
The masters we are

We're coming from outer space
We're coming from outer space
To salvage the human race
To salvage the human race
