

# Number One

Helloween

Each time when one more year was over  
You refused to hear heaven's bell sounds  
And the hapiness in your heart's been set lower  
You're searching for friends  
But no one seemed to be 'round

You merely should think of the good times  
'Cos there are so many ways you can go  
Take a look at yourself  
You're still very young  
And big aims always take very long

Now it's time for hapiness  
Stay hard and trust your fate  
Don't forget you're something else  
You'll never be to late  
Trust your father's mighty spell  
You'll never be alone  
Fate will always turn out well  
And you'll be number one

Shout at the world don't care what they say  
'Cos your life is now, here and today  
Luck is there, ev'rywhere  
Go on reap it's goods, that's the way  
You wanna have truth relief from your pain  
But life takes it's tool again and again  
Don't fear the night  
Your future is pay  
And the tracks to your aims are laid

Now it's time for hapiness  
Stay hard and trust your fate  
Don't forget you're something else  
You'll never be to late  
Trust your father's mighty spell  
You'll never be alone  
Fate will always turn out well  
And you'll be number one

Now it's time for hapiness  
Don't forget you're something else  
Trust your father's mighty spell  
Fate will always turn out well
