Ami

I never looked higher

F

G

Than I could see

Ami

Never gave less

F

G

Than I have given me
The more you have taken
You turned into fakes
I finally know how
Why for heavens'sake?

Emi Ami

Don't tell me you did not see that I cried

Don't act so deaf and blind

Emi Ami

Don't think that is someone's made dumb to the core

F

G

He would stay like before

C G

So I take my life

umi Emi

Back from where the rain grows

C G

Die to survive

Ami Emi C

Back from where the rain grows

Now you call me liar
'Cause you are just the
\"Always-have-rightfools-majority\"
I think that if someone
Starved at your side
You'd all turn your back

Won't give any dime

Don't tell me you did not see that I cried Don't act so deaf and blind Don't think that is someone's made sad to the core He would stay like before

So I take my life
Back from where the rain grows
Die to survive
Back from where the rain grows

Solo

So I take my life
Back from where the rain grows
Die to survive
Back from where the rain grows
I know where the rain grows

 $\ensuremath{\text{I}}\xspace$ m back from where the rain grows
