

# Black December

Hellyeah

Dear black December,  
I'm writing in this eulogy  
I don't wanna remember, all I wanna do is forget.

'Tis the season of giving  
But to others soles spare me  
No reason for living, because your curse ain't over yet.

If I had a dime, for every tear I cried

All you've ever done is tie my noose, take my dreams.  
All you ever do is tear my up, break my wings

I offer my surrender, cold cruel December  
Just keeps on, keeping on  
I'm on the dark side of the dawn  
Just waiting for the end,  
Of black December

Cold black December

Dear Black December,  
Your cold is strangling me  
Stuck inside the cinders  
So you can not tell my distress.

'Tis the season of darkness  
So you can keep everything  
Your super sale and the silly cheese balls the falalalala idiots

If I had a dime, for every tear I cried

All you've ever done is tie my noose, take my dreams  
All you ever do is tear me up, break my wings

I offer my surrender, cold cruel December  
Just keeps on, keeping on  
I'm on the dark side of the zone  
Just waiting for the end  
Of black December,  
Cold black December,  
Cold black December,  
Black December

Look, please help me  
Please help me get away  
Oh, please help me  
Through these black December days

There is no light, inside the black  
Forge ahead, no turning back  
Decembers day,  
Decembers bad,  
Decembers cruel,  
Decembers black

All you've ever done is tie my noose, take my dreams.

All you ever do is tear me up, break my wings

I'll offer my surrender, cold cruel December  
Just keeps on, keeping on  
I'm on the dark side of the dawn  
Just waiting for the end  
Of black December

Cold black December

All you ever do is tear my up, break my wings.
