

# Oh My God

Hellyeah

The little boy in me that was wild with fright  
Nobody came to my rescue when I called out that night  
So many times, so many tries so many cries for help in life  
But it's too late now...

OH MY GOD!

I made a deal with the devil now the devils in my blood  
I'm the bullet he's the gun  
Now the targets on your back and here I come  
I'm the bullet he's the gun  
I made a deal with the devil now the devils in my blood  
I'm the bullet he's the gun  
Now the targets on your back and you're so fucked!  
Cause I'm the bullet he's the gun

The struggle, is real, (it's so real)  
My conditions critical in life, was I born to suffer till I die  
Darkness, consumes (it consumes me)  
Draw the shades and stick my eyes, watch my sanity unwind  
I've been drained of compassion  
My fingers up fuck the masses!

OH MY GOD!

I made a deal with the devil now the devils in my blood  
I'm the bullet he's the gun  
Now the targets on your back and here I come  
I'm the bullet he's the gun  
I made a deal with the devil now the devils in my blood  
I'm the bullet he's the gun  
Now the targets on your back and you're so fucked!  
Cause I'm the bullet he's the gun

My hands off the wheel (hands off the wheel)  
Your process is complete destroyed what matters most to me  
The burden, holds me (holds on to me)  
I'm just a product of my past, I'm like a book with one last match  
I've been drained of compassion  
My fingers up fuck the masses!

OH MY GOD!

I made a deal with the devil now the devils in my blood

I'm the bullet he's the gun
