Helmet

Recapture his anger  
He screams and yells, he hates you

Your mind faded so fast  
Just drunk bitching and rehash  
I'm done acting surprised  
It's all bullshit and  
Barefaced lies

Recapture his anger  
He screams and yells, he hates you  
Catch phrases, disguises  
He sells it all, you buy it

You think everybody loves you  
But I know you're an asshole

Recapture his anger  
He screams and yells, he hates you  
Catch phrases, disguises  
He sells it all, you buy it  
Recapture his anger  
He screams and yells he hates
