

Dislocated

Helmet

Abandon famine, slammin' DJ
You suffer fools, you suffocate
Now clap your hands and sing my praises
It turns out my turnout, turned out great

Threatened before, before, before, before
The time it destroyed, destroyed, destroyed, destroyed

I start with me, my and I
No flesh, no birds in the trees
Ain't got no soul to destroy
Just grinning, glistening, shiny teeth

Threatened before, before, before, before
Time it destroyed, destroyed, destroyed, destroyed

You suffer fools, you suffocate
You suffer fools, you suffocate

How
He been shaking hands
Dislocated
With a rubber man
Nasty rumor
I seen your face before
Pretty pink
In the adult store
Strap it on
I've seen your face before
How, how
Threatenin' to destroy

Threatened before, before, before, before
Timing destroyed, destroyed, destroyed, destroyed

I destroy
Destroy
Destroy
