Psst! Come here!

I hear the music, daylight disc  
Three men in black said, "don't report this...  
Ascension" and that's all they said  
Sickness now the hour of dread

All praise  
He's found the awful truth  
Balthazar  
He's found the saucer news

Wait! there's more...

I'm in fairy rings and tower beds  
"Don't report this," three men said  
Books by blameless and by the dead  
King in yellow, Queen in red

All praise  
He's found the awful truth  
Balthazar  
He's found the saucer news

Dead leaves always give up motion  
I no longer feel emotion  
When prophecy fails the falling notion  
Don't report this  
Agents of Fortune

All praise  
He's found the awful truth  
Balthazar  
He's found the saucer news
