

Powder Puff

Helmet

It's background noise, only bits and pieces
Say nothing, mean nothing
He is dumb, but he's dangerous
Nothing means nothing

Blame everyone under the sun
Stars and moon above everyone
You talk so tough
You're just a powder puff

A voice that drones, I think something is leaking
Say nothing, mean nothing
Don't read or write, don't know what he is
Nothing means nothing

Blame everyone under the sun
Stars and moon above everyone
You talk so tough
You're just a powder puff

You talk tough
Send them up
You're the one

Blame everyone under the sun
Stars and moon above everyone
You talk so tough
You're just a powder puff

Blame everyone under the sun
Stars and moon above everyone
You talk so tough
You're just a powder puff
