

Undastand

Heltah Skeltah

Undastand Heltah Skeltah only mean war, undastand
The war's with everything outside your door, undastand
He be R O, I be R U, undastand it can happen to you

Heltah Skeltah start stormin'
Ya, up for dreamin' it's mornin', I'm warnin'
People who jeal my name ring bells like a doorman
A warrant, for the arrest of a militant menace

Who serve heads like tennis with words that diminish
Bust the scrimmage, I call the high post play
Dish off to the center fo' da quick lay
Slay, anybody come in my lane

Gets blown out the frame by the Flipster and lames, look
Who is this gettin' swift with this pugilist
Equipped with the lyrical gift to flip scripts
People duck sick what? Don't wanna touch with that ruff

That Ruck kick, break boys bones like Roy Jones
Decoys roam, but they can't mess with my people
Hey you stepped to the Ruckus recognize that I be lethal
My gats spits at wack niggaz blacks get, tactics
Make it hard for any infiltrator to attack this

Undastand Heltah Skeltah only mean war, undastand
The war's with everything outside your door, undastand
I be R O, he be R U, undastand it can happen to you

Undastand Heltah Skeltah only mean war, undastand

I make shit so hot boy the heat might even swelter
Or melt ya, I nailed ya, nigga tried to yell but he felt the
Shell now in hell wondering who's Heltah Skeltah

Sparsky and Dutch, Ruck and, Rock see
We gets buck wild on your block and harass the cops
No diggy, my head's hot, scream loud and clear
Watch the red dot, move a muscle boy you bed' not

See the last two figures they can't describe me
Military Punisher Rock M P
Watch, the, nine millimeter brain better
You won't be beefin' and your heart won't be beatin' either

Either you're real or I hate you I break you
Like glass shatters the bullet brings it to dat ass
Bastard, you talk faster, my gun buck faster
I jet, faster the next L sparked

Undastand Heltah Skeltah only mean war, undastand
The war's with everything outside your door, undastand
He be R O, I be R U, undastand it can happen to you

Undastand in the midst of utter confusion I got sumpin' for stars
Frontin' in cars and bars when I lace you with my gym star
Recognize real never the rap that's rungy
But my pow make yo' shit snap like bungee

Once we, unite, like I'm Martin Luther
I'm startin to shoot the people messin' wit my future
So who's the, wiggly that wanna test me and address me
Just to try an impress me them people come and stress me

Undastand, to be the man ain't even the plan
But stand in my way and get crushed under sand
So guard your backs or matter fact guard your naps on
Down 'til we you, click your heels times and, ahh

I'm at the door bringin' war to your town
It's the Rock, now you gotta get away like Bobby Brown
I get down, punk gets pounded like fractions
Worlds get blown when Ruck and Rock start overreactin'
