

# The Only Way

Hemina

Wallowing in the more  
(What good is that gonna do?)  
They say that I am suffering a sickness  
That I am incapable  
The danger's in believing that it's true  
(Who's gonna lift you up, boy?)  
If you can't turn this demon on its head  
You might as well check out for good

Hey, let's do this right now!

Don't become your enemy  
You got this!  
This is the only way  
I will never be one of them again

Every day we just complain  
And close our eyes and pray it goes away  
So raise your voice and make demands  
It's time to take a stand  
It's the only way  
Sing...

Chemically ripe for war  
They say that I am suffering a sickness  
Bet that's what they told Dad too  
The danger's in not knowing what to do  
If you can't burn this ghost of grief  
Prepare yourself for life to close its doors

Every day we just complain  
And close our eyes and pray it goes away  
So raise your voice and make demands  
It's time to take a stand  
It's the only way  
Sing...

Stripped to the bone with hefty muscle  
Expose the core with cruelty out of love  
Adopt a different kind of life  
An honest, human, primal cry!

We will not follow  
We lead the way  
We're the new leaders of man

Every day we just complain  
And close our eyes and pray it goes away  
So raise your voice and make demands  
It's time to take a stand  
It's the only way  
Sing...

Every day we just complain  
And close our eyes and pray it goes away  
So raise your voice and make demands  
It's time to take a stand

It's the only way  
Sing...
